

University of Stuttgart

Stuttgart Research Center Systems Biology

16.10.2023 – 14:00 CET

Dr. Marcel Hörning

IBBS, University of Stuttgart

Mechanosensitive and spatially confined dynamics in biological systems

20.11.2023 – 14:00 CET

Dr. Stefan Kubick

FU Berlin & B4 PharmaTech GmbH

Cell-free systems for the generation and characterization of membrane proteins, glycoproteins and novel antibody formats

27.11.2023 – 16:00 CET – PWR 57, 8.122

Prof. Dr. Nicole Radde

ISA, University of Stuttgart

Modeling and simulation of cellular systems – Using mathematical models to transform data into understanding

22.01.2024 – 14:00 CET

Prof. Pablo Iván Nikel, PhD

DTU Biosustain, Denmark

Bringing fluorine into the (essential) chemistry of bacteria

29.01.2024 – 14:00 CET

Prof. Dr. Lisa Maier

University of Tübingen

Drug-microbiome interactions and their consequences on the host

05.02.2024 – 14:00 CET

Jun.-Prof. Dr. Chengzhe Tian

IZI, University of Stuttgart

A journey into single-cell heterogeneity and its implications in human diseases

15.02.2024 – 16:00 CET

Prof. Dr. Zhike Zi

SIAT, Chinese Academy of Sciences

Systems Biology of TGF-beta Signaling: from Analysis to Control

Systems Biology Seminar

Program
Winter Term 2023/2024

Lecture Hall 0.106
Allmandring 31
